Professional Background

SENIOR BUSINESS ANALYST

Algar Telecom | November 2020 - Currently

I currently develop market analysis focused on the development of mathematical indicators within the business intelligence area in addition to the creation of interactive panels to visualize opportunities within the market using data visualization tools and I also work with developing SQL queries and creating python programs. At algar telecom, I developed projects in the commercial, financial, strategic and georeferencing dashboard segments.

MARKETING INTELLIGENCE ANALYST

Brasal Veículos | December 2017 - February 2019

As a Marketing Intelligence Analyst, I developed tasks that aim to bring results to the business segment through mathematical indicators in the after sales segment and in parallel with the development of projects. I developed several projects such as systems implementation, data analysis and creation of dashboards in business intelligence in order to optimize processes to maximize profitability.

I worked with several projects such as systems implementation, data analysis and creation of Dashboards in business intelligence in Power Bi and Excel in order to optimize processes to maximize profitability.
